

PRINCIPAL ENVIRONMENTAL & HAZARDOUS MATERIALS CONSULTANT POSITION

Job Brief:

Berg Compliance Solutions, LLC is a small EHS consulting business located in Austin, Texas. We specialize in helping small businesses manage EHS compliance. The company is a spinoff of Berg Environmental Services, Inc. which is a hazardous waste management business founded in 2003.

Over the past 6 years, we've established our brand identity, proven our business model and are now poised to scale by attacking new markets and verticals throughout Texas and the country. As part of our future growth plans, we are seeking a very experienced and qualified consultant to fill the role of Principal Environmental & Hazardous Materials Consultant.

The Principal Environmental and Hazardous Materials Consulting role requires extensive knowledge and application of EPA and TCEQ regulations as they apply to the manufacturing, oil & gas and petrochemical industry.

The role also requires extensive professional development and mentorship experience and aptitude to facilitate our recent college graduate apprentice program.

Experience & Qualification Requirements

- Educational Requirements:
 - Minimum 4 year B.S. degree in environmental science or chemistry from an accredited 4 year university.
 - Graduate degree in above discipline(s) strongly preferred
- Proven experience as a senior environmental compliance professional working with large enterprise companies, preferably within a consulting business
- Excellent organizational and leadership abilities
- Strong entrepreneurial spirit, drive and skills
- Outstanding communication and people skills
- Familiarity with MS Office and various business software (e.g. PM, ERP, CRM)
- Minimum 15 years of proven environmental & hazardous materials compliance experience:
 - Implementation & Management of EPA & TCEQ and hazardous materials rules and regulations:
 - Compliance Audits
 - Air Emissions: PBR, NSR & Title V

- Storm Water
- Waste Water Discharge
- Air Emissions
- RCRA/Hazardous Waste Management
- Tier II, EPCRA, TRI
- SPCC
- DOT Hazardous Materials

Summary Responsibilities

- Manage, meet & exceed company Key Performance Indicators
- Deliver client services (maintain 85%+ billable utilization)
- Support company Apprentice Program to mentor, coach & develop recent graduate hires.
- Help Develop and Revise company policies and procedures as necessary, and promote their implementation & consistent use.

Notes:

- Candidates must live in the Austin area or be willing to relocate.
- Interested and qualified candidates should respond with a current copy of their resume, compensation requirements, and availability to careers@bes-corp.com.
